Dear Sir,

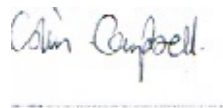

RE: Consent # BCO10364430-A
362 Matakana Valley Road.

Thank you for your email of 22 May 2024. As requested the information has been uploaded to the portal, drawings are clouded and marked as Revision H and dated today.

1. The Floor Levels are not changed. The surveyor engaged at preliminary setout stage requested that the relative levels be adjusted by 5.000m to relate to an existing building he was using on site. We have now revised all the levels to match the original Building Consent survey levels.
2. Update to page 3 not required as per 1. above.
3. Updates not required as per 1. above.
4. Table removed as per 4d.

I trust this covers your request and look forward to hearing from you.

Sincerely,

Colin Campbell B Arch ANZIA Director
