DEVELOPMENT CONTRIBUTIONS INFORMATION

Gross development area (GDA) are used for assessing development contributions; gross development areas are defined as:

1. The gross floor area of any building measured from the outer faces of the exterior walls or the centre line of walls separating two abutting buildings; and
2. The area of any part of the allotment used solely or principally for the storage, sale, display, movement or servicing of goods or the provision of services on the allotment.

GDA includes the areas occupied by network service providers for carrying out their normal business, including offices, workshops warehouses and any outside areas

Gross development area does not include:

- a) Vehicular parking ancillary to the primary development, manoeuvring, loading and landscaping areas and areas used only for primary production purposes (such as quarry workings, farm lands and orchards) the conversion of which to another would require resource consent or building consent; and
- b) The area of plant, equipment servicing the site and network infrastructure including pipes, lines installations, roads, water supply wastewater and stormwater collection and management systems

Will the gross development area (GDA) increase because of this development?

No

Impervious surface area (ISA)

Impervious surface area is the area of any site, which is not capable of absorbing rainwater; e.g. building size or paved areas increased

Will the impervious surface area increase as a result of the development?

No
