Dear Sir/Madam

RE: MONITORING INSPECTION CHARGES - DISCHARGE PERMITS

The Auckland Regional Council is undertaking monitoring visits for all the wastewater discharge permits it administers. The purpose of the visit is to check compliance with the conditions of discharge permits and/or to investigate the environmental effects of the discharge. For permits that discharge to natural water or where there is a greater risk of an adverse impact on the environment, sampling is undertaken as part of the compliance monitoring inspection. Your discharge permit Ce/7835 is part of this programme and is scheduled to be inspected and sampled during 2000.

Your annual charge has covered the cost of staff time and travel associated with these visits. However, specific analytical charges are in addition to your annual fee as stated in the Council's Schedule of Administrative Charges. Therefore, the Regional Council will charge the analytical costs associated with this inspection which is estimated to be \$74.00 and an invoice for the actual costs will be forwarded in due course.

Please note that the analytical costs may vary if the site is found to be in breach of consent conditions.

If you require any further information with regard to this matter, please contact the undersigned on phone (09) 366 2000, extension 8176.

Yours faithfully

pr 

Kathy Duffett
Senior Compliance Monitoring Officer
