Dear Andrew

Re: Level 4 office space, 15 College Street, Wellington.

The level 4 office space has been designed and constructed as a new building and therefore meets 100%NBS. At the time of the level 4 construction additional structural strengthening was installed to the existing building as part of the upgrade works. A detailed assessment of the existing building has been completed and we confirm that we believe this building is not an earthquake prone building and as such the Wellington City Council does not require earthquake strengthening.

Please call if you have any queries.

Yours faithfully

Scott Miller

Attn: Keith Nightingale

Dear Keith,

Re:- 15 College Street- Seismic upgrade strength

We designed the seismic upgrade of 15 College Street to achieve 54% of the strength required for a new building designed to current codes (**54%NBS**).

We carried out construction monitored of the seismic upgrade works. On reasonable ground we believe the construction works have been completed as per our design and that this building now has **54%NBS**.

Please call if you have any queries.

Yours sincerely
